

SHOW TECHNOLOGY RECOGNITION OF EXCELLENCE AWARDS

Key projects receive credit

Show Technology recognises the enormous efforts its' Partners put into the projects, productions and installations that they successfully implement. At a recent Partner Summit in Sydney the company officially recognised twelve key Partners and their respective projects. The awards were handed out at a Gala Dinner held at Sydney's Novotel Hotel, Olympic Park, with more than seventy of Show Technology's closest Partners present.

"Sometimes the size of a job isn't the most important factor," says Emmanuel Ziino, Managing Director of Show Technology. "It is the effort required in terms of resources and strategy that really matters and that's what these awards recognise."

"We felt it was important to publicly recognise some of the key projects and events that have contributed to our success in recent times. Of course, the credit belongs to all of our customers who work tirelessly every day to get our product out into the market."

"Quite often you move from project to project and no one stops to say "well done". Hopefully this time we have done so."

The Show Technology 'Recognition of Excellence' Awards were handed to the following Partners:

Concert and Corporate Productions for [Burswood Casino Exterior Lighting](#)
Chameleon Touring Systems for [Sydney Symphony Orchestra Sydney Superdome Spectacular](#)
Lightmoves Pty Ltd for [Royal Exhibition Building Exterior Lighting](#)
Sound Advice for [Australian War Memorial Lighting](#)
Beyond AV for [Olympic Cauldron Lighting](#)
Osmond Electronics for [Adelaide Convention Centre](#)
